

Arescosmo, in partnership with Cira, will take part to the 2017 edition of FUTURO REMOTO, the most important Science Show of Italy, held in Plebiscito Square in Naples, on May 25th-28th.

The main theme of the event, promoted and organized by Fondazione Idis - Città della scienza, is CONNECTIONS, with many different subthemes, including aerospace.

In the CIRA stand High Tech pneumatic greenhouse will be exposed for plant growing by means of hydroponics and LEDs for air bacterial charge removal and a model of stratospheric platform that Arescosmo is developing with Cira, CNR and Hypatia.
